Eval. Notes:	On September 24, 2020, a standard compliance inspection was conducted at Lohnpack Contract Filling Inc. (LCF), located at 1980 E State Street Extension, Trenton, NJ. Lohnpack is a large quantity generator (LQG) of hazardous waste. The facility representative at the time of this inspection was Christine Mottram (Warehouse Manager). Lohnpack was last inspected by the hazardous waste program on 03/03/2017 with no violations found. Lohnpack is a contract packager for the industrial and adhesive manufacturing industry. Lohnpack's customers will provide their product in pails or drums and they will package it in tubes, bottles, cans, or cartridges, etc, according to their customer requirements. The packaged product is then shipped back to their customer ready to be sold to the end-use. Hazardous waste is generated from the packaging process, off-spec, expired and discontinued products. Hazardous waste is also generated from acetone rags used for cleaning the lines. During the facility tour, the factory and the warehouse were inspected. Observed in the factory was one (1) 10-gallon pail containing acetone rags. This pail is emptied every evening in a specified 55-gallon drum in the central accumulation area (CAA). The CAA is located in the warehouse. Observed were seventeen (17) 55-gallon drums of D001 hazardous waste. All containers were properly marked/labeled with the words "Hazardous Waste" and an indication of the hazards of the contents. Due to COVID 19, standard paperwork review was not conducted on-site. The following was provided electronically for my review: 20 hazardous waste manifests dated 08/16/2017 -08/24/20, CAA drum inspection log, hazardous waste training, 2019 Biennial Report, emergency response contract with Veolia, contingency plan, and preparedness and prevention paperwork. No RCRA violations were issued as a result of this inspection.											

No Linked Violations

CEI Evaluation	03/02/2017	Activity Location:	NJ	By:	STATE	Identifier:	001	Person:	SOSG	Suborganization:	Found Violation:	NO
NOC Date:		Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	03/02/2017	Focus Area:
Eval. Notes:	On 02 March 2017, Hazardous Waste Compliance & Enforcement conducted an inspection of Lohnpack Contract Filling Inc. (Lohnpack), which is located at 1980 E. State St. Hamilton Twp. NJ 08619 Mercer Co. Lohnpack has been issued EPA Identification #: NJR986638096 at this location. On this date Christina Mottram, Office Manager was interviewed and conducted the site tour. Lohnpack an adhesive filling and packaging specialist. Hazardous waste is generated by off-spec, expired and discontinued products. All applicable paperwork was review. The companys manifests, preparedness and prevention paperwork, contingency plan, and training documentation revealed no deficiencies. The Environmental Stewardship program was reviewed with facility representatives and they were provided with the Departments Compliance Assistance Package containing additional information. Based upon observations made during the course of the inspection, Lohnpack currently appears to be operating as a Large Quantity Generator of hazardous waste. No hazardous waste, universal waste or used oil violations were noted.											

No Linked Violations

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
